MIND MAP

BRIGHT MOTORS – CAR SALES ANALYSIS

1. PROJECT PLAN & MIND MAP

Objectives: revenue by make/model, best regions, pricing trends. Milestones & timeline. Deliverables: architecture diagram, car_sales_processed.xlsx, car_sales_queries.sql, presentation PDF, dashboard.

1. ARCHITECTURE DIAGRAM

Data flow: Source CSV → ETL clean/transform → BigQuery Storage → SQL Analysis → Excel/Looker Visualisation → Canva/PowerPoint Presentation.

1. DATA SOURCE

Dataset: car_sales_data.csv, 558K+ rows, 16 columns, semicolon delimited. Key columns: year, make, model, state, sellingprice, mmr, odometer, saledate.

1. SQL ON GOOGLE BIGQUERY

Load CSV, clean NULL values, standardise body type. Analysis: revenue by make/model, sales by state/region/year. Key calcs: total_revenue, profit_margin_pct, margin_tier.

1. CHARTS & VISUALS

Bar charts: revenue by make/model, profit margin. Map: sales by region. Line chart: price over time. Pie chart: sales by body type. Scatter: price vs odometer.

1. PRESENTATION

Title slide, project overview, data summary, key findings (revenue, margins, regions, trends), recommendations to head of sales, conclusion & next steps.
